Gap Management

TC plus

WHY CHOOSE GAP MANAGEMENT?

Transitioning to 100% digital compliance tracking with True Compliance may reveal discrepancies between previously reported compliance figures and actual data. These gaps can arise due to various factors, such as:

- Contractor management issues
- Missing certificates or assessment files
- Inconsistent data reporting

Our Gap Management Service helps identify the root causes of these gaps and provides a structured solution to close them efficiently.

HOW IT WORKS

This structured 2-3 month project consists of three key phases:

1. **Initial Setup (Approx. 2 Weeks)**

- Identify compliance gaps.
- Train contractors on the True Compliance platform.
- Develop an action plan for resolution.

2. **Monitoring & Support (4-8 Weeks)**

- Ongoing compliance management by the TC Plus team.
- Regular engagement with contractors to track progress.
- Active resolution of compliance gaps.

3. **Final Report & Next Steps (Approx. 2 Weeks)**

- A comprehensive report outlining progress, key findings, and future recommendations.
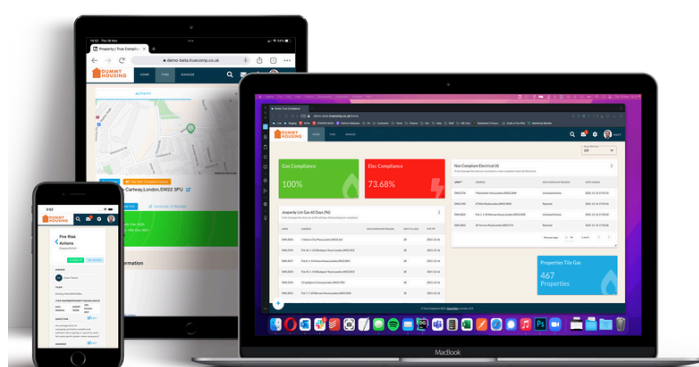

TRUE COMPLIANCE

Gap Management

WHAT'S INCLUDED?

Pricing is determined based on the number of compliance streams and properties involved. Larger clients may require additional resources for effective gap closure.

WHO CAN BENEFIT?

This service is ideal for organisations that have identified compliance reporting gaps after a Digital Audit. It combines:

- Compliance management expertise
- Contractor engagement & training
- True Compliance platform optimization
- Project management oversight

If your compliance data needs alignment with regulatory expectations, Gap Management provides the guidance and structure to bridge the gaps efficiently.
